

Power Energy Logger (PEL) Release Notes – Version 2.9.16216**Released 2024-11-04****Version 2.9.16216****New Features**

- Added the Pel 112, 113, 115 to the PEL Control Panel software interface

Bug Fixes

- Fixed an issue which allowed users to select a now removed “Montly” report
- Fixed an issue which allowed the user to execute a recording larger than the remaining card space
- Fixed an issue with the estimated SD Card status was incorrectly overestimating the available space
- Fixed an issue where the logo was missing from the About section of the control panel
- Fixed an issue where the recordings for PEL 51, 52, 105 were reporting incorrect duration in recordings.
- Fixed an issue causing the PEL 105 unit to be unable to select the 1 second harmonics option
