AEMC[®] Instruments welcomes Mark Stathenas as Authorized Factory Representative for Eastern Canada

Dover, NH – AEMC[®] Instruments, part of the Chauvin Arnoux Group[®] welcomes **Mark Stathenas** as Authorized Factory Representative for Eastern Canada. Mark will serve as your primary point of contact for product information, technical support, and order coordination in the Eastern Canada region.

With over two decades of experience in technical sales, distribution and business development, Mark brings a proven track record of exceeding sales targets by identifying growth opportunities, building strong customer relationships and delivering practical solutions that support safety, reliability and operational excellence.

In his new role, Mark will be responsible for expanding AEMC's presence throughout Eastern Canada by providing technical expertise, product training, and applications support while building awareness of AEMC's premium portfolio of electrical testing and measurement solutions. His multilingual skills (English, Greek and Spanish) and multicultural social skills make him an asset in all markets.

"I am excited to represent AEMC throughout Eastern Canada," said Mark. "Having worked on both the manufacturing and distribution sides of the business, I understand the importance of strong partnerships, responsive communication, exceptional customer support, and delivering solutions that create value for customers. I look forward to working closely with our distribution partners and end users to expand AEMC's presence and continue building on the company's strong reputation."

Please join us in welcoming Mark! He can be reached at mstathenas@aemc.com or (289) 200-5493.

AEMC[®] Instruments manufactures professional electrical test and measurement instruments for the industrial, commercial, and utility marketplace. Our products are backed by over 130 years of experience in test and measurement instruments and encompass the latest international standards for quality and safety. AEMC[®] products can be purchased through a worldwide network of distributors. www.aemc.com
